

Choose the stethoscope that helps you achieve your best.

3M™ Littmann® Stethoscopes offer superb acoustic performance, consistently high quality, and an outstanding value. Nearly all Littmann stethoscopes use tunable technology, a 3M invention that gives you the ability to hear different frequency sounds without turning over and repositioning the chestpiece.

Experience the power of tunable technology.

LIGHT CONTACT:
Hold the chestpiece with light pressure to hear low frequency sounds.

FIRM PRESSURE:
Press the chestpiece a little more firmly to hear higher frequency sounds.

Lightweight		Classic				Cardiology			Electronic			
6 Acoustic Performance Ideal for taking blood pressure readings and making limited patient assessments.		7-8 Acoustic Performance Hard-working, dependable, clinical tools for physical assessment and monitoring of your patients, one long shift after another.				9-10 Acoustic Performance Designed to meet the needs of demanding clinicians. Provides outstanding acoustic sensitivity to help you perform detailed diagnostic auscultation.			10+ Acoustic Performance High-performance auscultation. Hear more of what you need to hear with amplification, ambient noise reduction, and optional connectivity.
